PRESS RELEASE
2008

KUHN launches new "Spare parts" services for its distribution network

In addition to **KUHN I tech**, an online technical support tool for mechanics in its distribution network, the KUHN Group is continuing to develop its high added value services designed to optimise the performance of its Partner network, with the release of **KUHN I search** and **KUHN SOS ORDER**.

KUHN i search: the spare part GPS

KUHN i search is an online service for finding and locating a momentarily unavailable or out of stock spare part, anywhere in the world, via the KUHN sales network. By allowing every approved KUHN Partner to contact directly a colleague who has the spare part, **KUHN i search** multiplies the possibilities of finding a solution. This reduces waiting time for the final customer by providing the possibility of an immediate solution.

KUHN SOS ORDER: à la carte service, 7 days a week*

KUHN SOS ORDER is a dedicated service for shipping available spare parts on Saturdays, Sundays and national holidays. This service provides a repair solution every day of the year via a dedicated customer support and logistics service via the KUHN PARTS platform and possibilities for "à la carte" shipment (carrier, pick-up, taxi parcel, etc...).

KUHN SOS ORDER constitutes a strong complementary argument for farmers, ensuring minimum downtime in the event of breakdown while optimising the cost of its seeding, harvesting or stock raising operations.

* except 1st January, 1st May and 25th December
